SUMMARY

Full-stack software engineer who has designed and shipped 5 production web/mobile applications end-to-end, including an offline-first React Native app with a custom sync engine, a Spring Boot REST platform serving both web and mobile clients, and a 7-table multi-tenant GraphQL schema with row-level authorization. Proficient across Next.js, React Native, Java/Spring Boot, Node.js/Express, PostgreSQL, MySQL, and MongoDB, with hands-on experience in system design, API architecture, and authentication (JWT, OAuth 2.0). CGPA 7.5, final-year Information Science & Engineering student.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL, HTML, CSS

Frameworks & Libraries: React, React Native, Next.js, Node.js, Express.js, Spring Boot, Expo, Zustand

Databases: PostgreSQL, MySQL, MongoDB, SQLite, IndexedDB (Dexie.js)

Backend & APIs: REST APIs, GraphQL (Hasura), Spring Security, JWT Auth, OAuth 2.0

Tools & Platforms: Git, GitHub, Docker, Maven, Vercel, Netlify, Render, EAS Build

Concepts: System Design, Offline-First Architecture, Component-Based Architecture, Responsive Design

PROJECTS

Local-First Notes App | *React Native, Expo, TypeScript, SQLite, Node.js/Express* [Live](#)

- Built a cross-platform (iOS/Android/Web) offline-first notes app using React Native, Expo, and TypeScript, with a platform-specific data layer backed by SQLite (native) and IndexedDB (web).
- Designed a custom sync engine with offline change queueing and conflict resolution, added client-side AES encryption, and deployed a Node.js/Express backend to Render with CI/CD via Netlify.

AI Agent Workflow Builder | *Next.js, TypeScript, Hasura GraphQL, PostgreSQL, Nhost* [Live](#)

- Designed a 7-table multi-tenant schema (organizations, workflows, steps, triggers, runs) in PostgreSQL and modeled all relationships in Hasura GraphQL Engine on Nhost.
- Implemented Hasura row-level permission policies scoped by organization membership and role (owner/editor/viewer), validated against seeded multi-org test data; authored a technical design document for step-level authorization and resumable workflow execution.

FeatureHub | *Java, Spring Boot, MySQL, Next.js, React Native* [Live](#)

- Built a full-stack feedback and roadmap platform with a Java 17/Spring Boot 3 REST API, MySQL database with Flyway migrations, and JWT authentication via Spring Security, serving both a Next.js web app and a React Native (Expo) mobile app.
- Implemented real-time duplicate detection on feature requests, atomic-constraint-backed voting, and a roadmap lifecycle (Under Review → Planned → In Progress → Completed); containerized the full stack with Docker Compose and set up CI pipelines for backend and frontend validation.

SubTracker | *Next.js, TypeScript, Node.js, Express.js, MongoDB* [Live](#)

- Engineered a full-stack SaaS with a Next.js frontend and a Node.js/Express REST API backed by MongoDB, deployed and publicly accessible on Vercel.
- Implemented JWT authentication with protected middleware, category-wise spend analytics, and AI-powered detection of duplicate/unused subscriptions.

Agriculture College Website | *Next.js, TypeScript* [Live](#)

- Built a responsive multi-page institutional website with structured sections for admissions, programs, facilities, and contact, deployed on Netlify.
- Architected reusable, typed Next.js components with file-based routing for a scalable, maintainable codebase.

EDUCATION

AIET, Mijar – Moodbidri

2023 – Present

B.E. in Information Science & Engineering

CGPA: 7.5

Shubhodaya PU College

2021 – 2023

PUC

66%

Shubhodaya English School

2020 – 2021

SSLC

81%

CERTIFICATIONS

• **Node.js & MongoDB: Developing Back-end Database Applications** — IBM | Coursera | [View Certificate](#)

• **Programming with JavaScript** — Meta | Coursera | [View Certificate](#)

ACHIEVEMENTS

- Shipped 5 full-stack/cross-platform applications spanning web, mobile, and GraphQL/REST-based backends, all with live deployments
- Earned IBM and Meta certifications on Coursera covering Node.js, MongoDB, and JavaScript

LANGUAGES

English Kannada Hindi
